

Visonic takes top honors in IFSEC Security Industry Awards

Birmingham, UK – 17 May, 2012 – Tyco Security Products announced today that Visonic, a leading developer and manufacturer of cutting-edge home security and safety systems and components, took top honors for its PowerMaster-30 G2 wireless alarm panel with PowerG technology at the IFSEC International Security Industry Awards 2012 held during this year's IFSEC conference.

The PowerMaster-30 G2 wireless alarm panel was named the best product in the Intruder Alarm / Exterior Deterrent category. Visonic edged out 5 other finalists to take home the award.

A professional wireless security, safety and control system, PowerMaster is suitable for heavy-duty operation required in small to medium business installations and mid to high-end residential premises. The system accommodates over 120 wireless devices: up to 64 zones, up to 32 keypads, up to 32 keyfobs, up to 8 sirens and up to 4 repeaters.

“Our PowerMaster system is one of the most advanced wireless alarm panels designed to provide prolonged battery life, visual verification and the best wireless range of any product available in the market today,” said Tony Mann, Sales Director, UK & Ireland, Visonic. “The Visonic brand is honored to be recognized as the leading wireless provider by the IFSEC International Security Industry Awards 2012.”

The annual awards, handed out during a black-tie dinner on Monday, May 14th at the Hilton Birmingham Metropole Hotel in Birmingham, recognize achievements in categories ranging from technologies like CCTV, access control and intrusion to integrated security projects and partnerships between private security companies and law enforcement. IFSEC International Security Industry Awards 2012 was produced in association with the British Security Industry Association.
