

We envision a world where every person has the right to personal and property security at home or the office, and the freedom to choose his own lifestyle.

The Visonic group

www.visonic.com

The effectiveness of our products. The uniqueness of our advanced technologies. The vision of our management. The strength of our brand.

All of these combine to stand as a benchmark for the entire security industry and as an assurance for our customers of Visonic's readiness to guide them into a new and more secure way of living

Expanding the Boundaries of Security

The Visonic Group is an international developer and manufacturer of high-quality electronic security systems and components. We are dedicated to enhancing people's lives through increasing their sense of security. Our easy-to-use and innovative products such as Home Health Care & Telemedicine solutions, Security and Home Control systems, are vital parts of the 'connected home'; our integrated identification solutions watch over vital equipment and people in hospitals, senior residential facilities, correctional institutions and other institutional environments.

Three Decades of Excellent Performance

Established in 1973 by Moshe and Yaacov Kotlicki, Visonic became a public company in 2004. Our shares are listed on the official list of the UK Listing Authority and are traded on the London Stock Exchange under 'VSC' and on the Tel Aviv Stock Exchange under 'ויסניק'.

Global Presence

Visonic is headquartered in Tel Aviv. Our products, manufactured in our 10,000m² state-of-the-art manufacturing plant in Kiryat Gat, Israel, are sold through a network of subsidiaries, distributors, and sales representatives in more than 70 countries throughout North America, Europe and the Asia-Pacific region. Among our partners are such world-leading "blue-chip" companies as Group4Securicor, Gardiner, BT, Tyco, Telefonica and Siemens. Worldwide, Visonic employs about 450 people and realizes annual sales in excess of \$60 million.

Driven to Lead & Exceed

Visonic's leadership in the development of security technology is made possible by the company's dedication to innovative R&D. Its numerous breakthroughs over the past years have resulted in the granting of 65 patents and 45 patents pending. Our innovative products, designed, developed and manufactured in accordance with the highest standards of quality assurance, have earned full ISO 9001 certification.
