PowerMax™

Wireless control and security system for smart homes

Visonic's PowerMax™ control and security system sets new standards in home and office management with its unique design and technologies, and user friendly installation and operation.

- Controls the alarm system, lighting, entertainment centers, heating and cooling systems, sprinkler system, domestic appliances and social careresources.
- Fast and easy installation and friendly interfacing.
- Allows remote, mobile and in-house control with flexible programming options.
- Responds to specific events, such as motion and fire alarms, and can be programmed to alert the authorities and homeowners.
- Accommodates special requirements with elderly care facilitation, child monitoring mode and pet immunity.
- Protects premises with motion PIR, door/window magnetic, glass and smoke detectors.
- Available in wide variety of languages and frequencies.
