SR-720B PG2 
Wireless PowerG Indoor Siren

1. INTRODUCTION
The SR-720B PG2 is a full 2-way wireless PowerG indoor siren, designed for installation in areas in which wiring action is difficult or impossible.

Features
• Siren and strobe light activation: When an identified event message is received from the compatible PowerG alarm system, the siren activates its sounder & strobe light.
  Notes:
  The sounder is activated for a predefined "Bell Time" (refer to the control panel Installer Guide), according to local authorities requirements, or until the system is disarmed, whichever occurs first.
  The strobe light operates as described in the control panel Installer Guide.
• Tamper indication: In case of tamper while the system is armed, the siren transmits the message to the alarm system and then the alarm system determines whether the siren should be activated or not. If the siren does not receive an acknowledge message from the alarm system, the siren will function independently.
• Low battery voltage alert: When the battery voltage is low, a low battery message is sent to the alarm system. After the low voltage message delivery, at least 2 siren alarms are possible before the siren is totally inactive.
• Power Supply: Non-rechargeable battery.
• Sound Types: Burglar (between 1400Hz - 3200Hz), fire, gas (CO) and flood.
• Entry/Exit: Exit delay beeps sound once the user has armed the system. Entry delay beeps sound once the user has entered the protected area. (Entry/exit beeps can be enabled / disabled from the control panel Installer Mode.)
• Squawk indications: Squawk (beep) sounds can be used to indicate alarm system arming (1 squawk) and disarming (2 squawks) by a keyfob (squawk can be enabled from the control panel User Settings).
• Double Tamper protection: When the siren front panel is removed or when the siren is removed from the wall, tamper alarm is sent to the alarm system.
• 2-way full supervision
  The siren is a fully supervised, 2-way communication device. It includes a receiver, to receive event messages from the alarm system, and a transmitter, to periodically transmit its status signal to the alarm system.

Self-test feature
Upon pressing the self-test switch, siren functional check is performed - low level sounds and flash light indicate that the siren is serviceable.

2. INSTALLATION

2.1 Installation
1. Open plastic cover screw.
2. Using Philips screwdriver, remove screw and remove cover.
3. Mark for drilling.
4. Drill 4 holes.
5. Fasten with 4 screws.

A. Mounting surface.
B. For back tamper screw.

Figure 2: Installation
2.2 Battery Pack Insertion

A. Battery connector
B. Enroll button
C. Self-test switch

CAUTION!
Risk of explosion if battery is replaced by an incorrect type. Dispose of used battery according to manufacturer's instructions.

1. Connect the two connectors in their respective sockets.

2. Connect the battery connector and insert the battery.

2.3 Cover Closure
See Figure 4.
1. Put back the plastic cover.
2. Secure with screw.

3. ENROLLMENT

Refer to the PowerMaster panel's Installer Guide and follow the procedure under the "02:ZONES/DEVICES" option of the Installer Mode. A general description of the procedure is provided in the following flow chart.

<table>
<thead>
<tr>
<th>Step 1</th>
<th>Step 2</th>
<th>Step 3</th>
<th>Step 4</th>
</tr>
</thead>
<tbody>
<tr>
<td>Enter the Installer Mode and select &quot;02:ZONES/DEVICES&quot;</td>
<td>Select “ADD NEW DEVICES”</td>
<td>Enroll the device or enter the device ID</td>
<td>Select the siren number for the new siren</td>
</tr>
<tr>
<td>02:ZONES/DEVICES</td>
<td>ADD NEW DEVICES</td>
<td>ENROLL NOW or ENTR ID:XXX-XXXX</td>
<td>SR1:Siren Indoor ID No. 400-XXXX</td>
</tr>
<tr>
<td>MODIFY DEVICES</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Step 5 | Step 6 | Step 7 | Step 8 |
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Configure Location, Zone Type &amp; Chime parameters</td>
<td>Enter “PARTITIONS”. See Note 2</td>
<td>Assign partitions to the siren by pressing the 1, 2 and/or 3 buttons on the panel</td>
<td>Select the &quot;DEV SETTINGS&quot; option and refer to the section below to configure the siren parameters.</td>
</tr>
<tr>
<td>SR1:LOCATION</td>
<td>SR1:PARTITIONS</td>
<td>SR1:P1 P2 P3</td>
<td>SR1:DEV SETTINGS</td>
</tr>
</tbody>
</table>

Notes:
[1] If the siren is already enrolled you can configure the siren parameters and assign partitions via the MODIFY DEVICES option – see Step 2.
[2] PARTITIONS will appear only if PARTITIONING was previously enabled in the panel (for further details, see "Partitioning" in the PowerMaster Installer Guide).
[3] When there is an alarm, the siren will sound regardless of partition assignment.
4. CONFIGURING THE SIREN PARAMETERS

Enter the DEV SETTINGS menu and follow the configuration instructions for the SR-720B PG2 indoor siren as described below.

<table>
<thead>
<tr>
<th>Option</th>
<th>Configuration Instructions</th>
</tr>
</thead>
<tbody>
<tr>
<td>STROBE ALARM</td>
<td>Define whether or not to activate the strobe alarm, and if activated, whether to activate the strobe until the alarm system is disarmed, or, for the programmed period of time (see the &quot;Siren Configuration&quot; section in the control panel Installer Guide). Optional settings: Timer limited (default), Disabled and Until Disarmed.</td>
</tr>
<tr>
<td>EXIT-ENTRY Beeps</td>
<td>Define whether or not to activate the exit – entry beeps, and if activated, whether to activate in HOME or AWAY mode. Optional settings: Disabled (default), Disabled &amp; Home and Enabled.</td>
</tr>
<tr>
<td>SQUAWK</td>
<td>Define whether or not to enable the squawk, and if enabled, whether to activate the sounder only, or, the sounder and strobe simultaneously. Optional settings: Disabled (default), Sounder only, Strobe only and Sounder+strobe.</td>
</tr>
<tr>
<td>SOUNDER VOLUME</td>
<td>Define the volume level of the sounder. Optional settings: Volume HIGH (default), Volume LOW and Volume MID.</td>
</tr>
<tr>
<td>AUTO TAMPER ALRM</td>
<td>Define whether or not the siren alone will sound a tamper alarm when there is no communication between the siren and the control panel. Optional settings: Disabled (default) and Enabled.</td>
</tr>
</tbody>
</table>

5. LOCAL DIAGNOSTICS TEST

Before testing, remove the plastic cover and then open the battery cover (see Fig. 2).

A. Press the self-test button (see Fig. 3) once and release it; the following procedure should occur in turn:
   - The red LED will switch ON and then OFF, the green LED will switch ON and then OFF, the strobe light will switch ON and then OFF and the piezo siren will sound to indicate that the siren is now fully operational.

B. After 2 seconds the LED blinks 3 times.
   - The following table indicates received signal strength indication.

<table>
<thead>
<tr>
<th>LED response</th>
<th>Reception</th>
</tr>
</thead>
<tbody>
<tr>
<td>Green LED blinks</td>
<td>Strong</td>
</tr>
<tr>
<td>Orange LED blinks</td>
<td>Good</td>
</tr>
<tr>
<td>Red LED blinks</td>
<td>Poor</td>
</tr>
<tr>
<td>No blinks</td>
<td>No communication</td>
</tr>
</tbody>
</table>

**IMPORTANT!** Reliable reception must be assured. Therefore, "poor" signal strength is not acceptable. If you receive a "poor" signal from the device, re-locate it and re-test until a "good" or "strong" signal strength is received.

For detailed Diagnostics Test instructions refer to the control panel Installer Guide.

Note: For UL/CUL installations, the test result must be “Strong”.

6. COMPLIANCE WITH STANDARDS

**Compliance with Standards**

Europe: EN 301489, EN 50130-4, EN 50130-5, EN 50131-4 Type W, EN 300 220, EN 60950-1

Security Grade 2, Environmental Class II.

UK: This product is suitable for use in systems installed to conform to PD6662:2010 at Grade 2 and environmental class 2. DD243 and BS8243

USA: CFR 47 Part 15 (FCC)

Canada: RSS 210

Certified by Applica T&C.

The Power G peripheral devices have two- way communication functionality, providing additional benefits as described in the technical brochure. This functionality has not been tested to comply with the respective technical requirements and should therefore be considered outside the scope of the product’s certification.

The digital circuit of this device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in residential installations. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio and television reception. However, there is no guarantee that interference will not occur in a particular installation. If this device does cause such interference, which can be verified by turning the device off and on, the user is encouraged to eliminate the interference by one or more of the following measures:

- Re-orient or re-locate the receiving antenna.
- Increase the distance between the device and the receiver.
- Connect the device to an outlet on a circuit different from the one which supplies power to the receiver.
- Consult the dealer or an experienced radio/TV technician.

**Note:** The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user’s authority to operate the equipment.
This device complies with FCC Rules Part 15 and with Industry Canada licence-exempt RSS standard(s). Operation is subject to two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference that may be received or that may cause undesired operation.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

7. SPECIFICATIONS

Frequency Band (MHz): Europe: 433, 868, USA: 915*
Note: For UL Listed Product, enable this frequency band
Modulation: GFSK
Antenna: Built-in antenna
Communication Protocol: PowerG
Siren Type: At least 85 dBA at 10 ft (3 m).
Sound Pressure Level @ 1m, 1400Hz – 3200 Hz, sweep frequency 7 Hz.
Battery Type: Four 3.6V/3.5AH Lithium independent cells (EVE ER18505M) assembled in two plastic wrappings and connected to the cable adaptor (see Figure 3). Visonic assembly catalog no. 103-304742.
Note: Use only the above battery.

Note: The strobe flashes 5 times and the red LED lights continuously during first battery installation.

Battery Life Expectancy: 8 years (for typical use)
Low Battery Threshold: 2 V +300 mV negative slope OR 1.2 V
Quiescent Current Consumption: 58 µA
Peak Current Consumption: 500 mA
Strobe Light: Pulsed @ 1 sec.
Operating Temperature: -10°C to 60°C (-14°F to 140°F)
Note: For UL Listed product, the ambient temperature is 32°F to 120°F (0°C to 49°C), Relative Humidity 95%.
Dimensions (LxWxD): 161x161x50mm (6-7/16 x 6-7/16 x 1-3/4 in)
Weight (including battery): 470g (16.5 oz.)
Color: White (with transparent lens)

WARRANTY

Visonic Limited (the "Manufacturer") warrants this product only (the "Product") to the original purchaser only (the "Purchaser") against defective workmanship and materials under normal use of the Product for a period of twelve (12) months from the date of shipment by the Manufacturer. This Warranty is absolutely conditional upon the Product having been properly installed, maintained and operated under conditions of normal use in accordance with the Manufacturer's recommended installation and operation instructions. Products which have become defective for any other reason, after the Warranty period, are not covered by this Warranty.

The Manufacturer does not represent that this Product may not be compromised and/or circumvented or that the Product will prevent any death and/or personal injury and/or damage to properly resulting from burglary, robbery, fire or otherwise, or that the Product will in all cases provide adequate warning or protection. The Product, properly installed and maintained, only reduces the risk of such events without warning and it is not a guarantee or insurance that such events will not occur.

This WARRANTY IS EXCLUSIVE AND EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES, OBLIGATIONS OR LIABILITIES, WHETHER WRITTEN, ORAL, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, OR OTHERWISE. NO CASE SHALL THE MANUFACTURER BE LIABLE TO ANYONE FOR ANY CONSEQUENTIAL OR INCIDENTAL DAMAGES FOR BREACH OF THIS WARRANTY OR ANY OTHER WARRANTIES WHATSOEVER, AS AFORESAID. THE MANUFACTURER SHALL IN NO EVENT BE LIABLE FOR ANY SPECIAL, INDIRECT, INCIDENTAL, CONSEQUENTIAL OR PUNITIVE DAMAGES OR FOR LOSS, DAMAGE, OR EXPENSE, INCLUDING LOSS OF USE, PROFITS, REVENUE, OR GOODWILL, DIRECTLY OR INDIRECTLY ARISING FROM PURCHASER'S USE OR INABILITY TO USE THE PRODUCT, OR FOR LOSS OR DESTRUCTION OF OTHER PROPERTY OR FROM ANY OTHER CAUSE, EVEN IF MANUFACTURER HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

THE MANUFACTURER SHALL HAVE NO LIABILITY FOR ANY DEATH, PERSONAL AND/OR BODILY INJURY AND/OR DAMAGE TO PROPERTY OR OTHER LOSS WHETHER DIRECT, INDIRECT, INCIDENTAL, CONSEQUENTIAL OR OTHERWISE, BASED ON A CLAIM THAT THE PRODUCT FAILED TO FUNCTION. However, if the Manufacturer is held liable, whether directly or indirectly, for any loss or damage arising under this warranty, THE MANUFACTURER’S MAXIMUM LIABILITY (IF ANY) SHALL NOT IN ANY CASE EXCEED THE PURCHASE PRICE OF THE PRODUCT, which shall be fixed as liquidated damages and not as a penalty, and shall be the complete and exclusive remedy against the Manufacturer.

When accepting the delivery of the Product, the Purchaser agrees to the said conditions of sale and warranty and he recognizes having been informed of.

The Manufacturer shall be under no liability whatsoever arising out of the corrupion and/or malfunctioning of any telecommunication or electronic equipment or any programs.

The Manufacturers obligations under this warranty are limited solely to repair and/or replace at the Manufacturer's discretion any Product or part thereof that may prove defective. Any repair and/or replacement shall not extend the original Warranty period. The Manufacturer shall not be responsible for dismantling and/or reinstallation costs. To exercise this Warranty the Product must be returned to the Manufacturer freight pre-paid and insured.

The Manufacturer shall not be modified, varied or extended, and the Manufacturer does not authorize any person to act on his behalf in the modification, variation or extension of this warranty. This warranty shall apply to the Product only. All products, accessories or attachments of others used in conjunction with the Product, including batteries, shall be covered solely by their own warranty. If any of the Manufacturer shall not be liable for any damage or loss whatsoever, whether directly, indirectly, incidentally, consequently or otherwise, caused by the malfunction of the Product due to products, accessories, or attachments of others, including batteries, used in conjunction with the Products. This Warranty is exclusive to the original Purchaser and is not assignable.

This warranty is in addition to and does not affect your legal rights. Any provision in this warranty which is contrary to the Law in the state or country where the Product is supplied shall not apply.

Warning: The user must follow the Manufacturer’s installation and operational instructions including testing the Product and its whole system at least once a week and to take all necessary precautions for his/her safety and the protection of his/her property.
