VisonicGo Mobile App

Privacy Notice:

VisonicGo Mobile App (VisonicGo) allows for the processing of Personal Data. The processing of Personal Data consists of receiving a series of still video verification images from the Product(s) installed at your location in the case of an alarm event.

Visonic is the Owner/Developer of VisonicGo and does not have access to personal data contained in VisonicGo.

Like all major organizations, Visonic may use third parties and sub-processors in the fulfillment of services to you. We will never rent or sell your personal data to third parties and we will not share your personal data with parties that do not have a legitimate reason to access it. To find out what personal data is being processed by Visonic or to change your preferences, contact the Visonic Support Team at visonicprivacy@tycoint.com

By purchasing/installing/using VisonicGo, You are the Data Controller and Owner of the Personal Data in the VisonicGo Mobile App and as such, are obligated to learn about and comply with all applicable local, state and federal laws and regulations pertaining to Personal Data protection, privacy and security.
