Visonic's PowerMaster-33 Focus of Technology Events in Ireland

Participants gain opportunity for first-hand knowledge of the latest security solution introductions

HEATHROW, UK. 23rd October, 2014 – [Visonic](#), part of the Security Products business unit of Tyco (NYSE: TYC), the world's largest pure-play fire protection and security company, will demonstrate [PowerMaster-33](#) – its newest and most advanced security solution for residential and small to medium businesses – during a series of day-long seminars.

These free events in Cork, Limerick, Galway and Dublin, which begin in November and run through June, will allow participants to meet with the Visonic sales and technical team to train on and explore in-depth the unique features of PowerMaster-33, a distributed wireless security, safety and control system powered by the strength and reliability of [PowerG](#) technology.

Attendees will have the opportunity to interact with PowerMaster's related devices such as the highly flexible 64-zone "hidden" panel that operates with the aesthetically pleasing [KP-250](#) two-way wireless remote keypad, the ultrathin invisible magnetic transmitters, internal & external PIR cameras, attractive handheld panic buttons and the latest advanced feature software and cutting-edge interactive services such as mobile apps and remote maintenance.

"We're thrilled to have this opportunity to demonstrate the latest technologies and solutions from Visonic," said Alan Riegler, Sales Director, Tyco Security Products, U.K. and Ireland. "Through this series of events in Ireland, dealers, integrators and their customers will get to see first-hand the full functionality and diversity that PowerMaster-33 and all the related products offer both residential and small business security customers."
