

Wireless Door/Window Magnetic Contact

Stronger than ever!

Secure your customers and their property, with long-lasting protection of common intrusion points.

PowerG Wireless Door/Window Magnetic Contact

PGx303, MP-303 PG2 and BW-303

The new PowerG Wireless Door/Window Magnetic Contact is a highly subtle, yet powerful security device designed for installation on common intrusion points such as windows and doors. Offering additional protection of premises, it communicates with the end user's security system, reporting openings and closings of doors and windows, for timely alerts the instant an intrusion attempt begins. The robust communication link enables long-range transmission and strengthens protection against interference.

PowerG – The power of wires, without the wires

Cut out the wires and plug in peace of mind with PowerG, the leading wireless security technology for today's homes and businesses.

PowerG offers all the benefits of traditional wired security, without the hassles and vulnerabilities of wires. It makes end users' lives more secure and convenient, and your work more profitable.

Ultra-reliable, two-way 128-bit AES encrypted communication, and iron-clad protection that blocks interference, deliver unparalleled cyber protection – ensuring reliable performance with minimum false alarms.

Long-range wireless transmission enables easy and quick wire-free and repeater-free installations; and adaptive transmission stretches time between battery changes.

Key Benefits

Discreet Design

A small and discreet device, the PowerG Wireless Door/Window Magnetic Contact is housed within a compact casing that accommodates even the tightest-fitting installations, as well as those where aesthetics is key. Featuring a slim,

sleek design, the contact is practically invisible once installed, minimizing visual impact and blending into the décor of just about any home or office space.

Fast and Easy Installation

The PowerG Wireless Door/Window Magnetic Contact is simple to install, with attachment made even easier by the convenient pull tab. The built-in visible signal quality indicator lets you choose the optimal location for installation without going back and forth to the keypad.

Long-lasting Value

With an ultra-long battery-life of up to 6 years, the PowerG Wireless Door/Window Magnetic Contact offers long-lasting security. In addition to ensuring enduring value for end users, this helps minimize maintenance needs.

Versatile

Suitable for a wide range of residential and light commercial environments, the PowerG Wireless Door/Window Magnetic Contact is fully compliant with strict international standards. Highly adaptive, it is available in a white or brown casing, and is compatible with iotega, PowerSeries Neo, PowerSeries Pro and WP systems and BW and PowerMaster wireless alarm systems.
